This will expand the total size of the air terminal to cover an area of 25,000 square meters, including five additional gates, and experts estimate it will be capable to handle 2.5 million passengers per year. Questions 175-177 refer to the following letter.

How to Check an Insurer's Ratings

If you're looking for whole life coverage or a term policy that you'll want to keep for 20 or 30 years, the financial soundness of the insurer is a critical concern. You want some assurance the company will be around in case you aren't. For insurance companies, the major credit agencies like Standard & Poor's rate claims-paying ability.

Fortunately, information on the credit worthiness of insurance companies is easy to obtain. Reports are cheap or free over the Internet. You can always contact the insurance company and ask about its ratings, but it's best to get this information independently. In general, go with an insurer rated A or better; the most financially sound insurers are rated AAA, though some rating agencies use slightly different letter grades.

The premier web site in terms of detail and ease of use, (best of all, it's free) is insure.com where you can get ratings online from Standard & Poor's as well as comprehensive reports on individual insurers. Duff & Phelps ratings of claims-paying ability are available free at dcrco.com. AM Best's ambes.com has a huge database, but you have to pay for it. While you can access ratings free of charge, a detailed company report will set you back \$35.

Make sure any report you get is current, say within the last six months. Be extra careful to confirm ratings you'll find on many of the online quote services, which may be stale.

Câu 79. Who would be most interested in obtaining the ratings of insurance companies?

- A. Potential policy holders
- B. Premier web sites
- C. Individual insurers
- D. Major credit agencies

Câu 80. Which of the following is NOT true according to the article?

- A. It is best to contact the insurance companies directly to obtain their ratings.
- B. Financial health of insurers is very important.
- C. Some of the ratings obtained over the Internet may be outdated.
- D. AM Best charges a fee for a detailed company report.

Câu 81. What is mentioned as the advantage of using insure.com?

- A. It is the most up-to-date.
- B. It has the largest database.
- C. It is convenient to use.
- D. It offers an affordable service.

Subject: Meeting to discuss shortage of automobile parts

I am calling a meeting at 3 p.m. tomorrow to discuss the shortage of automobile parts for the upcoming holiday season. Some of you have already mentioned that various components are hard to obtain from the usual sources. We have looked into the matter, and it turns out the main reason we are experiencing difficulty with our usual sources is because our competitor, Fenway Automobiles, has recently offered them a much more lucrative contract. It is important that we obtain the needed items soon, through finding new suppliers. Unless we do so, we may not be able to meet our holiday deadline. As you all know, the demand for new automobiles goes up at the end of the year, and we want to make sure we meet the demand for cars on time.

It is no secret that Fenway Automobiles has been giving us a good run for our money. I believe that this holiday season is our chance to rise above the competition and find a firm, unshakable foothold in the industry.

Therefore, it is crucial that everyone attend this meeting. Also, I would appreciate it if you came with any ideas concerning useful strategies against Fenway Automobiles. If you have any additional questions or suggestions, be sure to contact me or my secretary .

Even before coming into ASU, I've heard great things about the Honors College and one of the goals that I've set this year was to get into the Honors College. But I feel that I've had to come a long way to even apply for the Honors College. My family's business has been going down ever since we moved to Arizona and last semester. I didn't get the money for the scholarship I earned, which was going to be used for my tuitions. So I had to work 12 hours a day every day for two months from September to November. Then at the end of November, before the final exam period. I got into a car accident, and I had to spend one week in the hospital.

My current G.P.A. after the first semester is 3.3. And I know that the G.P.A. has to be over 3.5 to be eligible to apply for the Honors College. However, I plead with you Prof. Cogner that you consider my situation and how it was inevitable for me to do not as well as I could and not get over 3.5 G.P.A. I thank you for your time and attention. Prof. Cogner.

Sincerely,

Jimmy Dashes

Dear Mr. Aljouney:

I read in the July issue of the popular journal, New Technology, about your new cellular phone, the Ultra 700 I-2. As we are the major distributor of cellular phone accessories online, the Ultra 700 I-2 is the kind of product we look for.

Our company, Wireless.com would be interested in selling the batteries, chargers, speakers, and other accessories that come with the Ultra 700 I-2, and of course the Ultra 700 I-2 itself.

Would you please be kind enough to send us a sample Ultra 700 I-2 phone and the accessories that will accompany the Ultra 700 I-2 and the proposed list prices? I would also appreciate the opportunity to meet with your sales representative to discuss volume discounts.

I look forward to hearing from you at your earliest convenience.

Subject: Requests for information

Date: Fri, Feb 2, 2006 16:23

Since we introduced our new camera, we've been getting a lot of requests for more information. I started a checklist to make sure we keep track of what our potential customers want. New Prints sent me an e-mail yesterday requesting 100 brochures and a display stand. (Are the brochures back from the Make Ads yet?) Inside Photo asked me this morning to get a sales rep to call. All the representatives are at a meeting and won't be able to return calls until Feb 5, next Monday. However, I will talk to the reps manager to see if they can finish their project earlier to talk to our clients.
